Re: Medical Authorization
Robinson v. Dannewitz, M.D., et al
Court No. 17-cv-0437

Dear Ms. Brand,

I am writing in response to your letter dated September 6th, 2018. I need to make clear that I have no problem signing a medical authorization when it is in compliance with Rule 35.

Rule 35.04 states "disclosure of medical records **related to the condition at issue.**" That being said, your statement of "any and all medical records" is too broad of a request. The request of Psychiatric, alcohol/substance abuse, HIV/AIDS, Mental health counseling records are completely irrelevant to any claim that I have put at issue in my complaint against any defendant.

This is so because in **Damgaard v. Health** 2014 U.S. DIST LEXIS 194807 (June 5th, 2014), **Damgarrrd** had placed her mental health at issue, and the court concluded that because her claims surrounded the claims of mental health perscription that her medical records surrounding her mental health was required to be disclosed.

The same principal applies here Ms. Brand, the only claims in my complaint surround an ankle injury.

Please craft your medical authorization around the claim at issue, the ankle injury.

Then I would have no problem signing an authorization form
so we could get this case moving along.

I thank you for your prompt attention to this matter,

Respectfully Yours,

Tony T. Robinson
